Tales From the Yacht Fly Date Rider

Airfare

The Artist prefers to control their own airfare and typically will do a buyout in the contract face or get actual reimbursement. If for some reason that is not possible, the Artist must approve all airfares before they are purchased. Flights should be direct (unless they are not available) and should be the shortest duration possible. All baggage fees will also either be included in the buyout or actual reimbursement can be billed after the event.

Local Ground Transport

Purchaser shall provide and pay for all local transportation for the Artist (all performers) and their crew. Number of vehicles required shall be coordinated with Artist management and shall accommodate all performers, crew, luggage and necessary equipment. Drivers should be professional and have knowledge of the area. Drivers are to meet Artist and its personnel at the airport, or other place of arrival and drive Artist and its personnel to the hotel, to the venue for sound check and engagement, to the hotel following sound check and performance, and to the airport or other place of departure. In some cases, a rental car buy out or ride share option may be available. Please inquire with management if this is a desired option.

Hotels

If this is a travel date and the contract calls for hotels to be provided, the Artist will typically need two (2) single rooms at a Holiday Inn level hotel or higher. The band is not fussy, they just don't want to catch any bed bugs 😊. It is preferred that the hotel has complimentary breakfast, internet, a fitness facility, and onsite restaurant or something within walking distance. Depending on the travel situation, a 2 night option for rooms may be required.

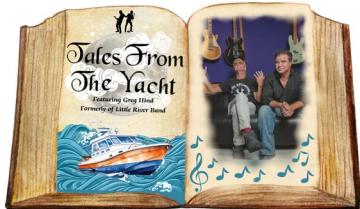

Load in/set up/sound check requirements

Artist requires a minimum of 2 hours of set up time. Purchaser shall insure that Artist has access to the venue a minimum of 2 hours prior to an appointed "quiet time" or when the doors are open to the attendees. Please note that the Artist reserves the right to conduct a full, performance volume sound check during this set up time. Artist respectfully requests a 30 minute set up period during a "festival" type engagement.

Dressing Room Requirements

When available, a clean dressing room shall be provided for the Artist's sole use. The room shall either be lockable with a key provided to the band manager, or be watched by a security person. The Artist does not smoke, therefore there shall be no smoking permitted in the dressing room by anyone. The dressing room shall be equipped with the following items for the Artist:

- 24 bottles of Evian Water (or suitable substitute)
- 6 Assorted sodas (at least 2 diet)
- 4 Sports Drinks (Gatorade or Powerade)
- 4 clean stage towels

Tales From the Yacht Fly Date Rider

Meal Requirements

Artist respectfully requests meal options for all performers and crew for consumption before or after the performance. Healthy options are certainly appreciated like a protein like grilled chicken, fish or beef with a vegetable, starch and/or salad option. Items such as sandwiches, pizza, or food tickets or vouchers are acceptable during festival performances.

Opening Acts

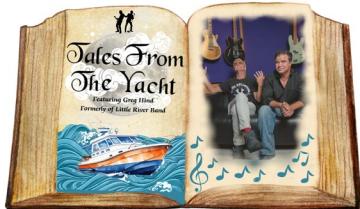

If the Artist is to perform with an opening act, the Artist prefers to contact the opening act one week prior to the show to go over equipment concerns and set lists to ensure that duplicate songs are not performed throughout the event. It is understood that if the Artist is the Headline Act, that Artist will have full opportunity for a complete sound check and that the opening act(s) will wait until sound check and stage set up are complete before setting up their equipment.

Promotion

In any print or internet advertisement, the Artist prefers that a band picture be used with the band logo. The Artist is happy to provide this media to the Purchaser. Please reach out to both Mary Capadosa dcassistant@magevents.com and Dan Abondano at marketing@magevents.com for the latest marketing assets.

Cancellation Policy

If the Production(s) is/are canceled by the Purchaser for any reason more than one hundred eighty (180) days prior to the event date, the deposit will be nonrefundable unless an event of equal value can be secured upon written notice of cancellation by Purchaser. Artist will make every attempt in good faith to secure a replacement event. In the event that a replacement event is secured of equal value, Purchaser will be entitled to a refund of all monies paid less fifteen (15%) percent of the agreement price which will be non-refundable and shall serve as an administrative fee. If the Production(s) is/are cancelled by the Purchaser for any reason within one hundred eighty (180) days prior to the event, the remaining balance due on the Agreement will be due unless the Artist secures a performance of equal or greater value for that same date and time. The Purchaser will be responsible for the difference in Agreement prices if the value of the new agreement is less than the original plus an administrative fee equal to fifteen (15%) percent of the total agreement price.

Tales From the Yacht Fly Date Rider

Rain/Shine/Safety Policy

It is understood that this agreement is rain or shine. The Artist's compensation is in no way affected by inclement weather. For outdoor performances, the Purchaser shall provide overhead shelter, free of leaks, for set up area. The Artist reserves the right, in good faith, to stop or cancel the performance should the weather pose a potential danger to the Artist, the equipment or the audience. Every effort will be made to continue the performance to the contracted end time. However, safety is paramount in all decisions and the Artist shall not perform in unsafe conditions. Specifically, outdoor performances shall not be performed if lightning is present or if rainy or other wet conditions may give rise to electrical shock. The Artist's compensation shall in no way be affected by any cancellations or delays in performance due to weather or unsafe conditions. The final call with regard to safety shall always be with the Artist. We are here to work, but also want to make it home in one piece with all our equipment intact.

Stage Requirements

Purchaser shall provide a stage with a minimum size of 12' wide by 8' deep for the performance. If available, the preferred size is 16' wide by 12' deep. The Purchaser will provide security to ensure that the Artist's equipment is safe during nonperformance periods. The Purchaser will also provide security to prevent audience from coming on stage during the performance unless authorized by the Artist.

Tales From the Yacht Fly Date Rider

Minimum FOH Sound System Requirements

ALL EQUIPMENT MUST BE TESTED AND IN PROPER WORKING ORDER

If the Purchaser is providing a Front-Of-House sound system for the Artist's performance, the Artist shall approve the system and the equipment at least 2 weeks prior to the show. If the system is not sufficient to meet the Artist's minimum requirements the Purchaser shall cover the expense for the Artist to rent a suitable system. The Artist typically does not travel with a FOH Audio Engineer. Additional technicians hired by the Purchaser must be qualified and have adequate experience running live sound for musical performances.

- 2 - 3 separate 20 amp circuits for stage, power amps and lights
- 1 separate 20 amp circuit for the mix site
- 12 or 24 channel mixing console or larger. A reputable brand is appreciated, Midas, AVID, Allen and Heath, etc.
- 1 stereo crossover
- Power amps appropriately sized for the venue
- 2 - 4 mid-high speakers and 2 - 4 sub-woofers (depending on venue size)
- 2 mid-high center fill speakers (more if applicable to the venue)
- 3 monitor wedges
- 1 8-channel splitter snake that can move to any location on the stage
- 8 XLR Cables to wire the stage (various lengths)
- 3 15' – 20' Instrument Cables (1/4" to 1/4") – Greg always forgets his

Lighting

Our goal is to achieve a professional lighting presentation that compliments and enhances the band's performance. Suggestions include:

Par style wash consisting of:

- 16 qty.36 X 1 watt each LED fixtures with RGB, RGBA, RGBW or RGBAW and DMX controllable.
Or.....
- 16 qty. 1000 watt par 64 cans with individual dimming and gels. 8 fixtures should include either R34, R02 or similar

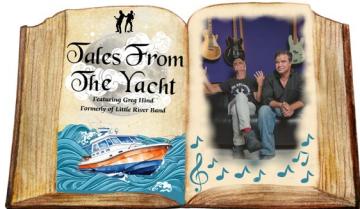

If possible, the Artist prefers a minimum of 4 moving head fixtures. Moving fixtures of matching type and intensity either flown upstage or placed on vertical truss pieces at upstage position. All fixtures should be DMX controlled with individual addresses. Moving head fixtures should have the following minimum intensities:

- Spot style – Arc lamp 250 watt
- Spot style LED – 75 watt
- Beam style – Platinum 5R lamp or similar
- Wash style - Arc lamp 250 watt
- Wash style – RGB fixture with similar intensity to MAC 101 or better

All lights provided to be connected to a DMX controller and operated by a qualified operator.
